FECC

Fukuoka Employment Consultation Center

Consult about your concerns for recruitment /employment with a lawyer or other professional free of charge.

Fukuoka Employment Consultation Center
A National Strategic Special Zone Business

Employees! Employers! See FECC before some hidden trouble trips you up!

Point 1

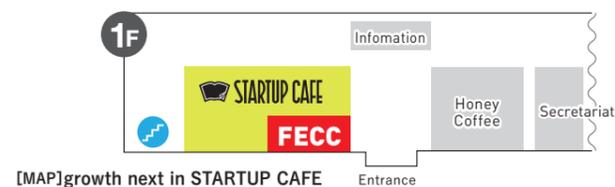

Consult about your concerns for recruitment/employment with a lawyer or other professional free of charge.

Have you been able to employ good workers? Are you working in a good environment?
FECC is a place where you can get solutions for problems that have not been noticed previously and problems that could arise in the future.

FECC was started in November 2014 in Fukuoka, one of the first National Strategic Special Zones, to support a healthy employment environment for startups, global entities, and others. FECC staffs its helpdesk with experts, like lawyers and social insurance labor specialists, who are knowledgeable about employment and labor and are active in Fukuoka City. Employees and employers, persons in charge of personnel and others, can easily consult with our experts about employment rules free of charge. There may be hidden employment risks in your company too. For both employees and employers, it is very important to avoid in advance the occurrence of any problem by preparing a robust employment environment.

The time to seek advice is when you re-do your employment agreement or employee rules, and also when you start to think about employment. FECC can help - from discovering potential risks to making a responsive plan.

FECC: for resolution of your concerns

Helpdesk consultation

Consult with experienced and knowledgeable advisors at the helpdesk.

Individual consultation / Consultation at your office

An attorney who is expert in labor issues will consult with you in a private room, or visit you at your office.

Seminars

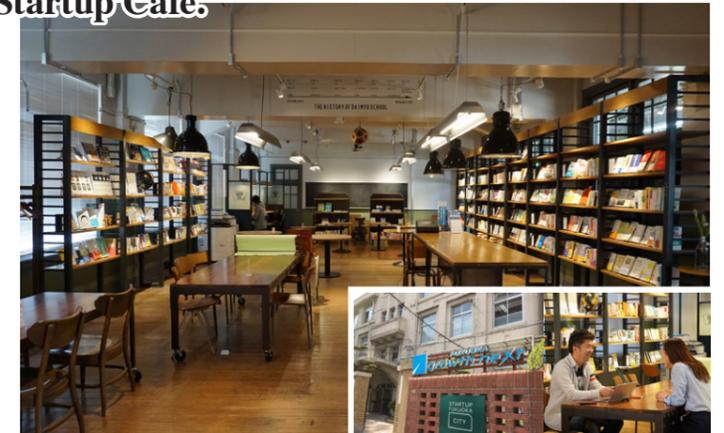

An expert will explain labor rules and classic risk trends and handling.

All services provided free of charge

Point 2 Comprehensive support for new business and second starts in cooperation with Startup Café.

“Offense” by Startup Café and “Defense” by FECC

The Startup Café in Fukuoka growth next, where the FECC helpdesk is located, has resident concierges who provide business advice to startup entrepreneurs. Startup Café supports your “attack”; FECC supports your “defense”. A powerful combination to comprehensively support persons starting a new business and looking to build a new secondary business. There are already examples of persons starting new businesses on the Startup Café and FECC foundation. We expect even more excitement going forward!

Point 3 Responsive to global businesses

Consultations are possible in foreign languages

Not only startups, but assistance for global businesses seeking to enter Fukuoka is also an important part of the FECC mission. For that purpose, we have advisors with foreign experience and it is possible to obtain advice in the English and Chinese languages(*).

It is also possible to utilize a telephone translation service to obtain assistance in other foreign languages.

“I want to get into Japan from abroad, but I do not know the employment rules of Japan.” Not only that kind of foreign business person or foreigner intending to startup a business, but also foreign workers can be comfortable in seeking advice.

In addition, many free seminars and events are occurring on a regular basis. The details are set out on facebook and our home page.

*Prior scheduling is needed.

Point 4 Users give us a high satisfaction ranking!

We have achieved a satisfaction rating of 100%!

FECC services have realized an extremely high reputation from our users. More than anything else, this comes from the high quality of our advisors. The FECC experts, with their polite and detailed advice, have earned the trust of both employees and employers.

FECC does not merely reply to the matter presented by the user, but has special skill in detecting risks that the user has not considered or thought of during discussion with the user. Please come and visit our helpdesk sometime!

*Targets are persons planning to start a new business, persons who have already recently started a new business, global businesses, and other similar businesses, and workers*1 in such businesses.

*1workers = includes persons planning to or considering entering into employment
